Experience

User experience designer (UI & UX)   2022 - Aug | 2024 - Dec
Ministry of Municipal Rural Affairs and Housing

I had the opportunity to work alongside a team of more than nine User Experience Designers in a fast-paced environment, where we contributed to the success of several projects. During this period, we focused on enhancing our abilities in collaboration with external teams, conducting usability testing, performing business analysis, and refining design systems.

I was privileged to engage with a variety of projects and build numerous external partnerships. Our workflow was facilitated by a range of tools, including both internal systems and external platforms like Trello and Slack. Moreover, I had the chance to participate in development workshops on multiple occasions.

Front End Developer l UI&UX designer   2020 - JUN | 2022 - AUG
Freelancer

Front End Developer   2020 - JAN | 2020 - JUN
Saudi Numbers Company

I have extensive experience in web interface design, development, and programming, where I've successfully created a wide range of designs tailored to project requirements. Many of these designs are showcased in my portfolio, highlighting the breadth and quality of my work in this field.

TECHNICAL SUPPORT   2019-OCT |2020- AUG
ONAIZAH ASSOCIATION FOR HUMAN SERVICES

I started this position as a Technical Support trainee, and my role has since transitioned to a part-time contract, which I still hold today. This experience has afforded me invaluable opportunities for professional growth and skill development within a leading charitable organization, allowing me to acquire essential support skills needed for the job.

TECHNICAL SUPPORT   2015 - JUL |2019 - DEC
FAYED ASSOCIATION

I held this position while pursuing my bachelor's degree, and my involvement with the charity has continued since then. I began with data entry tasks and later advanced to a Technical Support role. Throughout this period, I gained a variety of skills, both professional and social
